Technology and Online Job Search

Date and Time: Thursday, November 24 01:00 p.m. - 3:00 p.m.

Address: Region of Waterloo, Welcome Space / Mail floor - 99 Regina, Waterloo

Technology and Online Job Search Workshop

Tired of applying and never hearing back from employers? Not sure if you are applying correctly online? Want to know what employers are actually judging you on?

This workshop will help with all those questions and give the necessary tips and strategies to win in this new online job application world!

- Online job searching
- ATS (Application Tracking System)
- Social Media
- Online Applications
- Online etiquette

Topics covered in the workshop:

- Show how we live in a modern world and how companies are using this for their advantage when selecting candidates
- 84% of companies use social media in recruiting
- 63% of companies conducted remote interviews nowadays
- 97% of employers plan to increase their investments in recruiting technology
- How ATS (Application Tracking Systems) are heavily used in this modern world and how to beat them so your resume makes it to a human hand
- Including how to spot if a company is using an ATS system
- How to beat ATS systems so you don’t get thrown away like 80% of applications
- Why ATS are used and how to leverage them to make them an advantage for you
- How to create an online self that compliments your resume and job application
- Online etiquette
- Double edge sword. How to research a company as they research you
- Understand what your online self says about you
- Common mistakes and how to avoid them in regard to online job searching and applying
- How to put your best self forward with your online self
- Job board hacks and how to use the internet to assist with your job searching
- Online interviews and job research
- How to avoid online job scams
- This one is a big one for our clients. As you know there are a lot of scams out there!
